PROFESSIONAL SUMMARY

B.Pharm graduate (RGUHS, 2025) pursuing M.Pharm in Pharmacy Practice at RIPER, with experience in literature review, evidence synthesis, medical writing, patient-education content, and healthcare communication. Completed a comparative telepharmacy literature review and presented research at a national-level pharmacy conference. Certified in AI in Pharma (Skill India/NSQF Level 5), with additional experience applying AI and digital tools to healthcare education. Seeking entry-level Clinical Research opportunities.

CORE COMPETENCIES

Clinical Research Readiness: Literature review & synthesis, comparative outcome analysis, structured medical writing, evidence appraisal, research documentation

Pharmacy Practice & Patient Care: Patient counseling content, health simplification, adherence communication, telepharmacy concepts, digital health engagement

Medical & Scientific Communication: Pharmacology writing, research poster presentation, academic content architecture, AI-assisted literature support

AI & Research Tools: literature searching, evidence synthesis, Documentation, data handling,scientific writing, research methodology, GCP, regulatory knowledge

Technical & Documentation: Structured content management, process documentation, data annotation readiness, no-code automation

Languages (Clinical Asset): Kannada (Native), English (Professional), Hindi, Telugu, Tamil — strong vernacular patient communication capability

EDUCATION

Master of Pharmacy (M.Pharm) — Pharmacy Practice **Aug 2026 – Present**

Raghavendra Institute of Pharmaceutical Education and Research (RIPER), Anantapur | JNTUA

- Focus areas aligned with clinical pharmacy, patient-centred care, evidence-based practice and research methodology.

Bachelor of Pharmacy (B.Pharm) **2021 – 2025**

Priyadarshini College of Pharmacy, Koratagere | RGUHS, Karnataka | CGPA: 7.2 / 10

Pre-University — PCMB **2018 – 2020**

Satyam International School & PU College, Ballari, Karnataka | 81.45%

RESEARCH & KEY PROJECTS

Telepharmacy Research Project | Comparative Literature Review **2025**

"Patient Satisfaction and Counseling Effectiveness in Telepharmacy: A Comparative Literature Review of Remote vs. Face-to-Face"

- Conducted structured comparative analysis of remote vs. in-person pharmacy counseling outcomes — directly relevant to digital clinical research, telehealth trial design and patient-reported outcomes.
- Identified key patient engagement drivers and adherence factors in digital pharmacy settings; produced actionable recommendations applicable to clinical service integrations.
- Demonstrated core clinical-research skills: literature search strategy, critical appraisal, data synthesis, structured medical writing and evidence-based communication.

Research & Scientific Communication | PharmaNEST 3.E International Conference, Ooty • **2022**

- Presented research on nanoparticle drug delivery systems to multi-institutional audience; recognised as award recipient among peer researchers.
- Demonstrated scientific communication, research documentation and conference-level presentation skills essential for clinical research roles.

Healthcare Portfolio Website | Independent Build **Jan 2026**

- Designed, developed, and deployed a responsive portfolio platform showcasing **pharmacy, research, healthcare communication, and digital-health projects** using HTML, Tailwind CSS, and JavaScript.
- Applied UI/UX principles, AI-assisted development, structured content architecture, and independent deployment using Netlify and Cloudflare DNS.

EXPERIENCE

Founder & Platform Architect | **TechStudyHubCore • Apr 2026 – Present**

- Built and launched a live health-education platform serving pharmacy and nursing students through solved PYQs, academic guidance, and digital learning services.
- Designed the **S.M.I.L.E. Framework**, an AI-assisted vernacular health-education visual system prioritising Kannada and regional-language learners, reflecting an interest in patient-centred healthcare communication.
- Developed structured content workflows and no-code automation to organise and scale educational content across the platform.
- Designed landing pages, digital workflows, and AI-assisted content systems, combining **healthcare-domain knowledge, product thinking, UI/UX, and technology**.
