(M.Pharm)
Assistant Professor,
Dept. of Pharma-Marketing

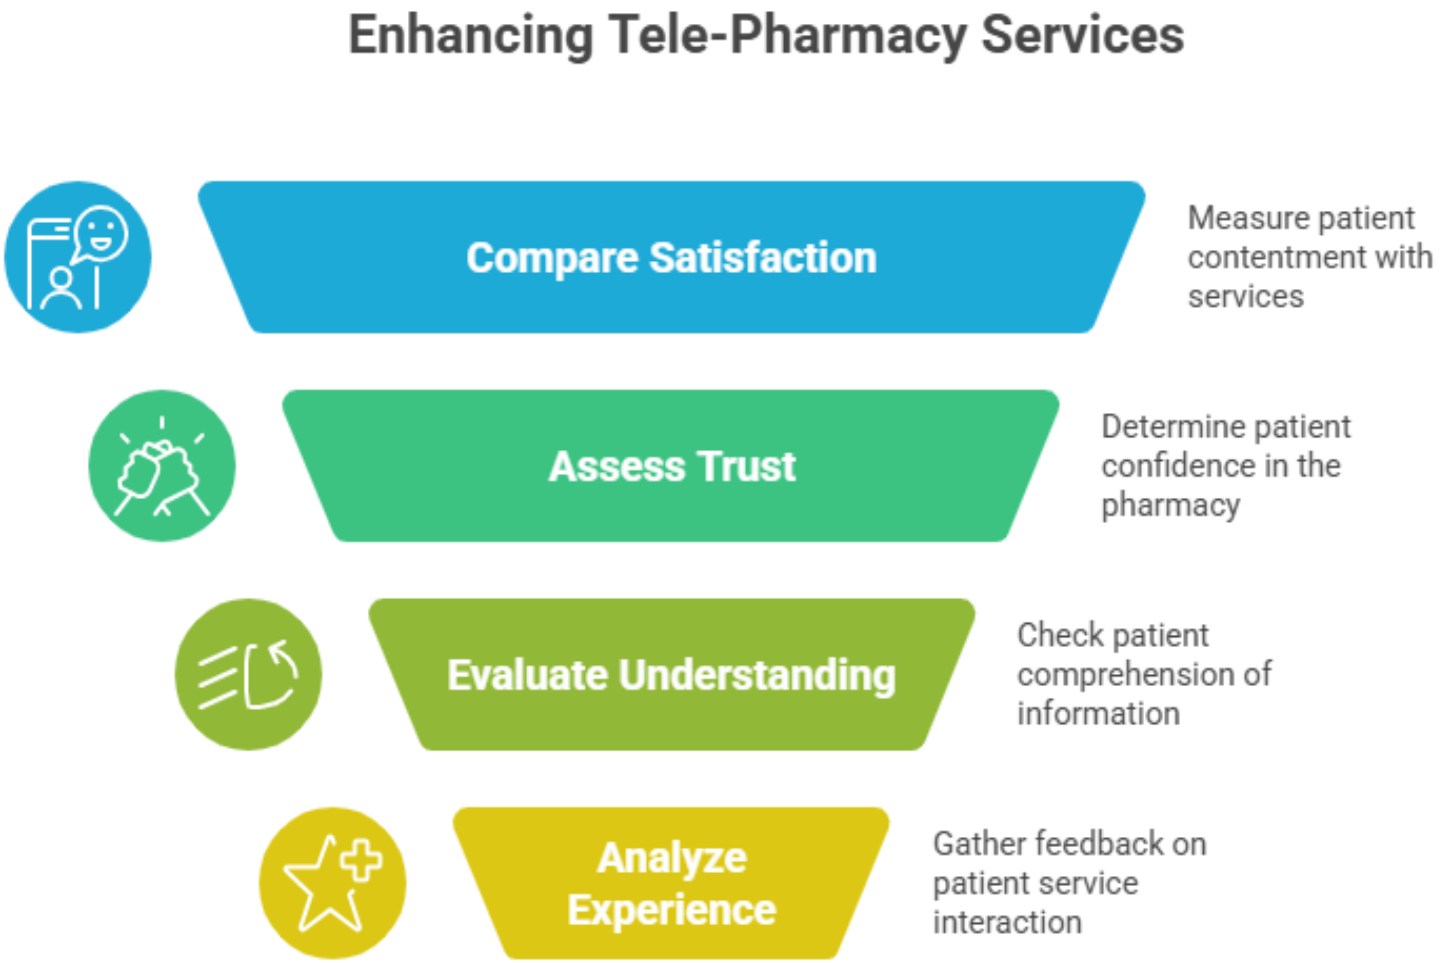

Introduction:-

Background and Rationale:-

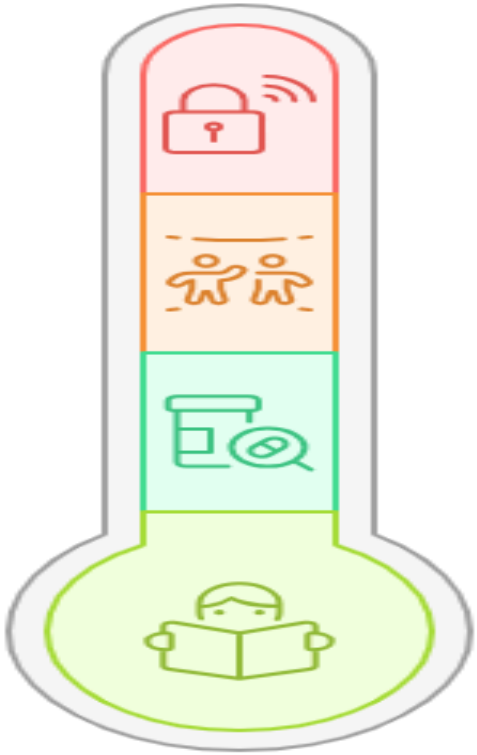

Aim & Objectives:-

Literature Review :-

Factors influencing digital health adoption, from positive to negative.

Schürmann et al. (2025)

Data security affects adoption

Patel & Singh (2019)

Framework for digital trust

Alexander et al. (2017)

Medication adherence in rural populations

Gomez et al. (2021)

Pediatric tele-pharmacy satisfaction

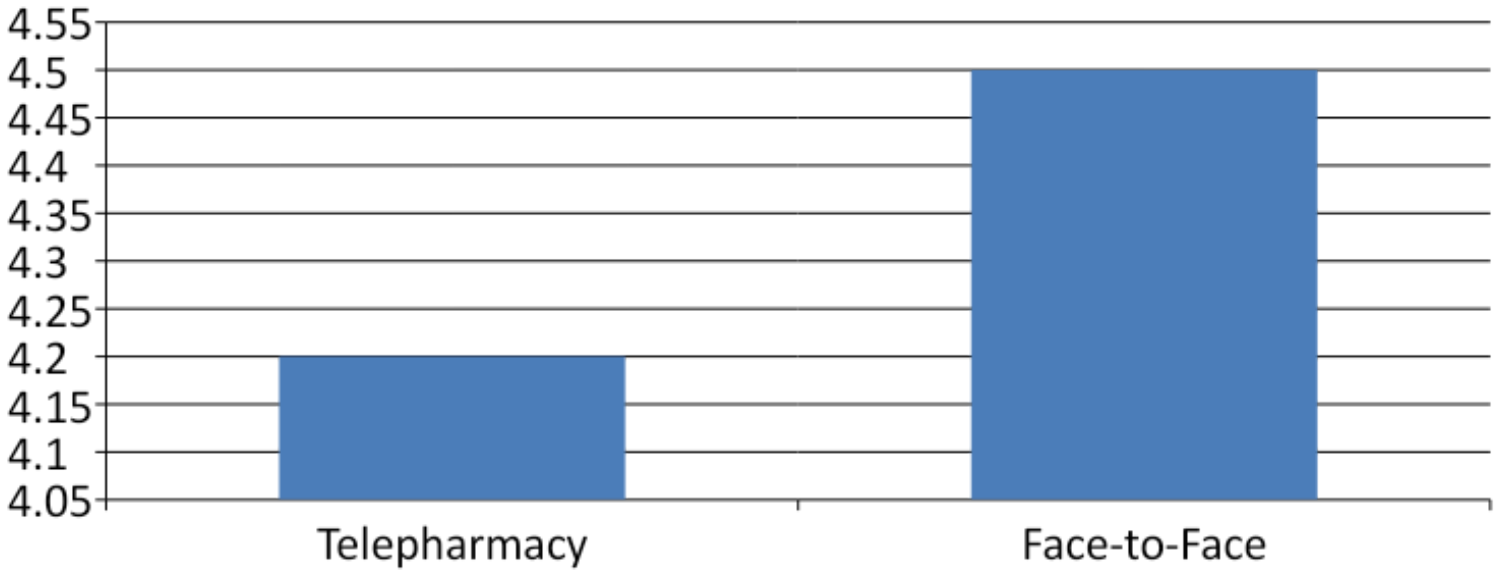

Comparison of Telepharmacy and Face-to-Face Counseling

Feature	Telepharmacy	Face-to-Face
Accessibility	High (remote access)	Limited to physical presence
Cost	Low operational cost	High infrastructure cost
Communication	Digital (audio/video)	Verbal & non-verbal
Engagement	Technology dependent	Direct interaction
Privacy	Encryption required	Confidential setting

Factors Influencing Trust:-

Trust Factor	Description	Impact
Audio-Visual Clarity	Quality of sound/video	High
Pharmacist Responsiveness	Prompt replies & attentiveness	High
Cultural Sensitivity	Appropriate language/ tone	Moderate
Privacy Assurance	Data protection confidence	High
Platform Usability	Ease of interaction	Moderate

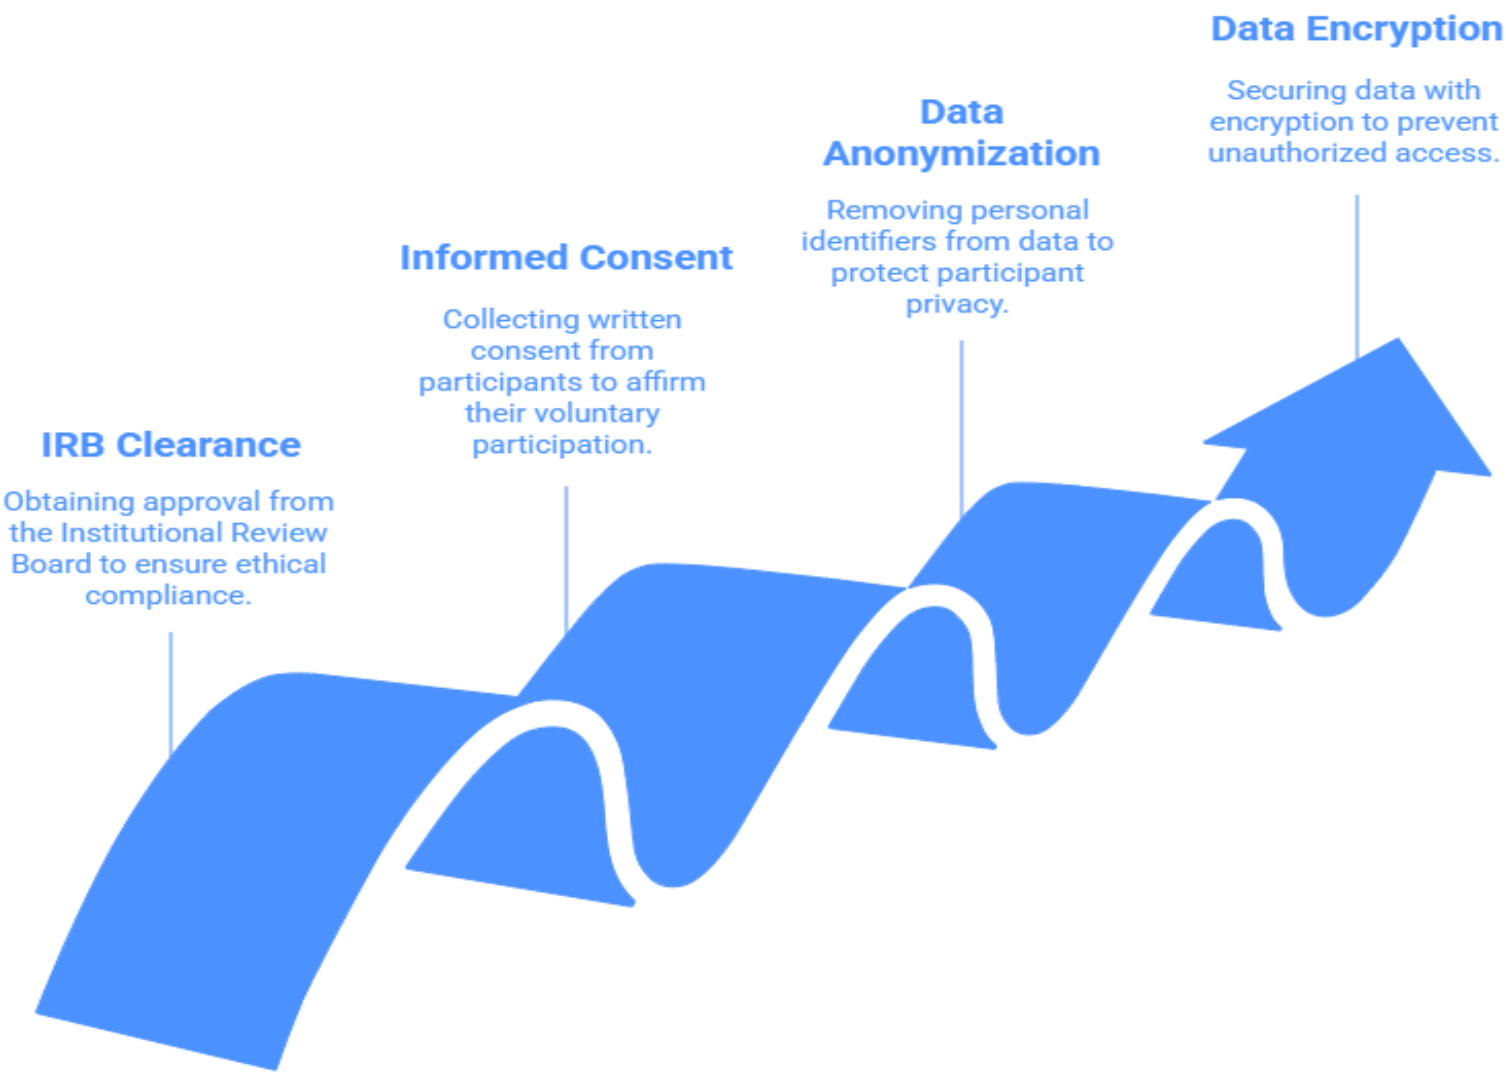

Satisfaction Scores Comparison:-

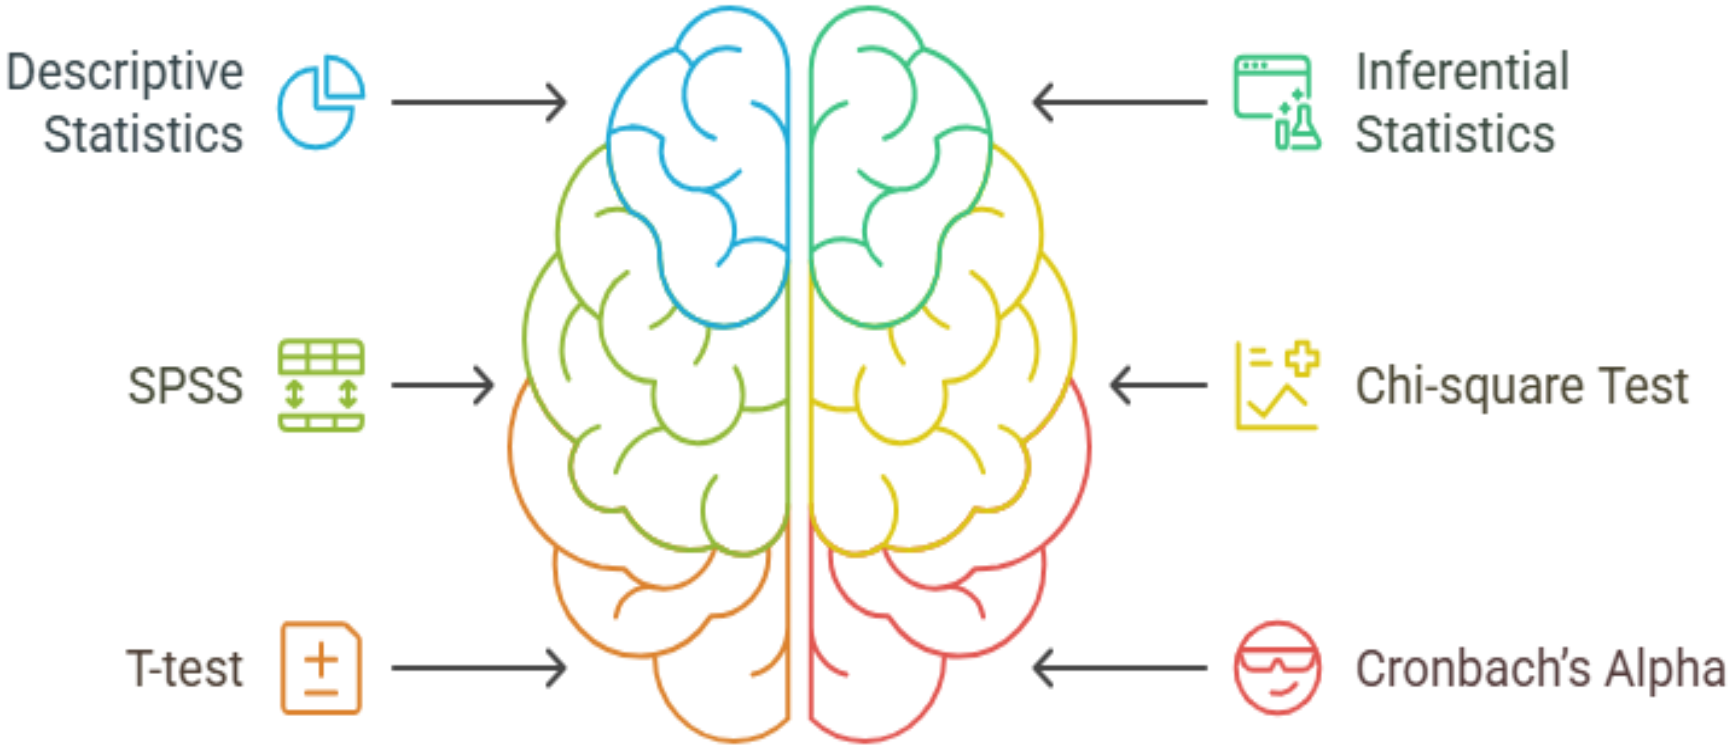

Trust Factors in Counseling:-

Factor	Telepharmacy	Face-to-Face
Audio Clarity	Moderate	High
Responsiveness	High	High
Privacy Assurance	Moderate	High
Personal Connection	Low	High
Empathy	Moderate	High

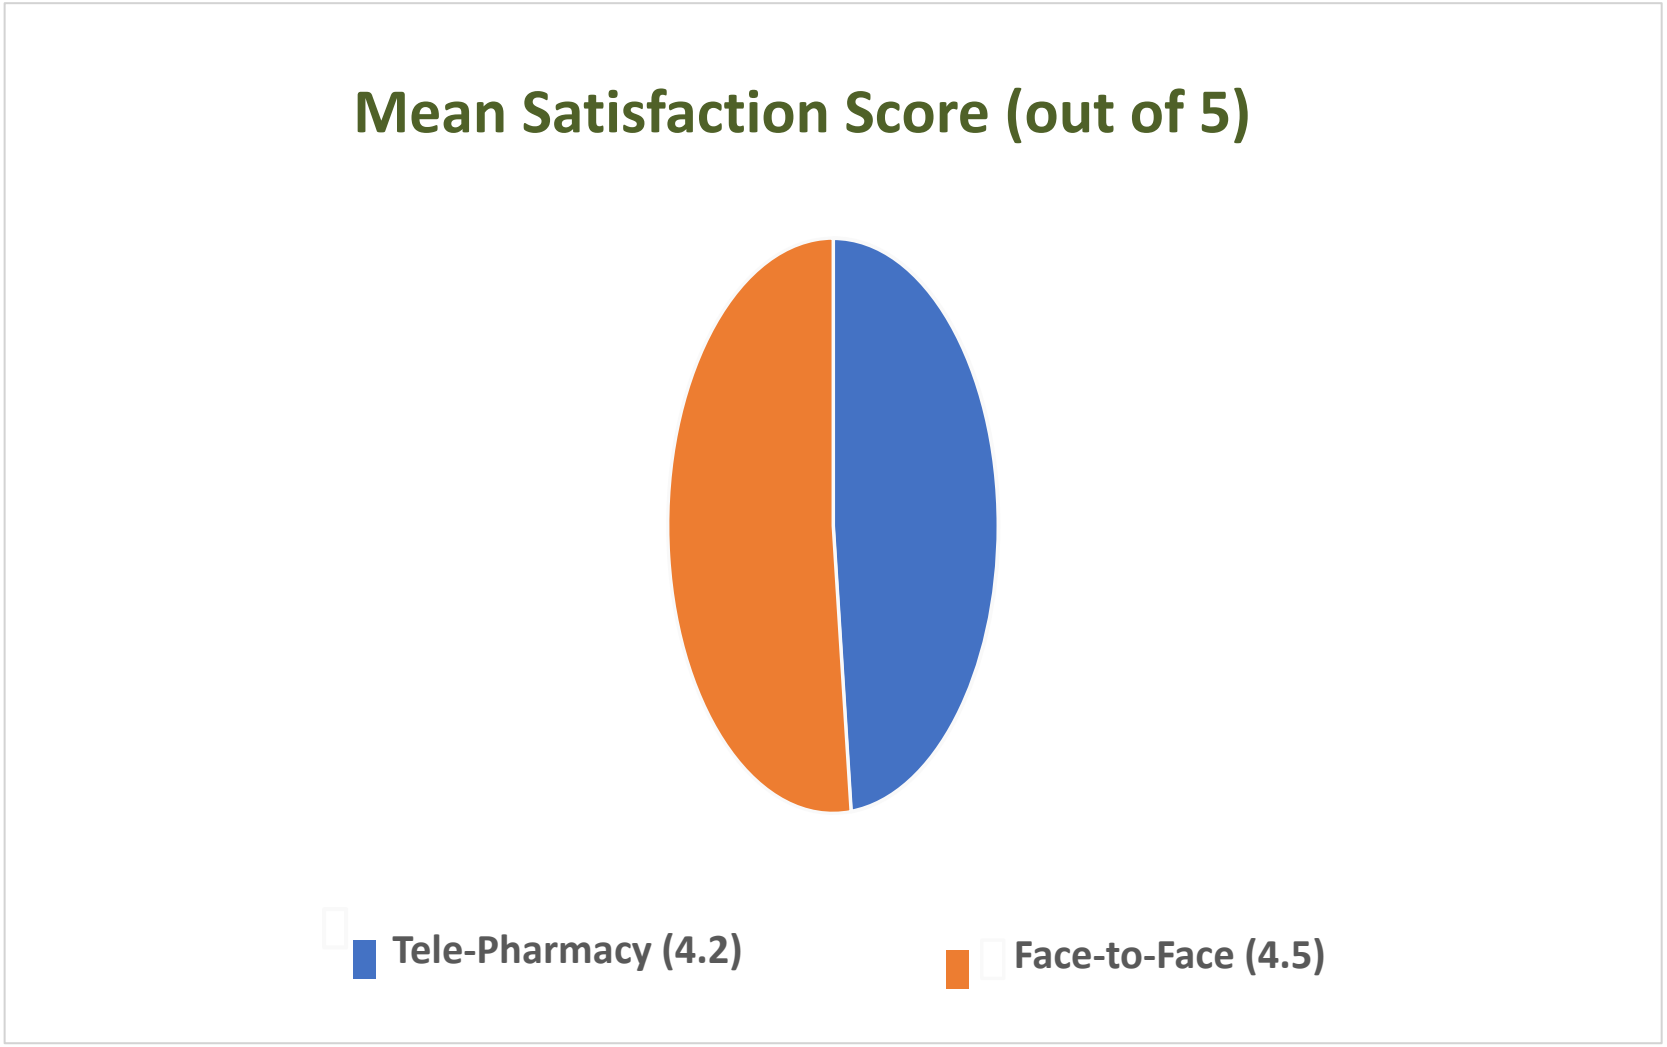

Ensuring Ethical Research Practices

Statistical Analysis Overview

Satisfaction Scores:-

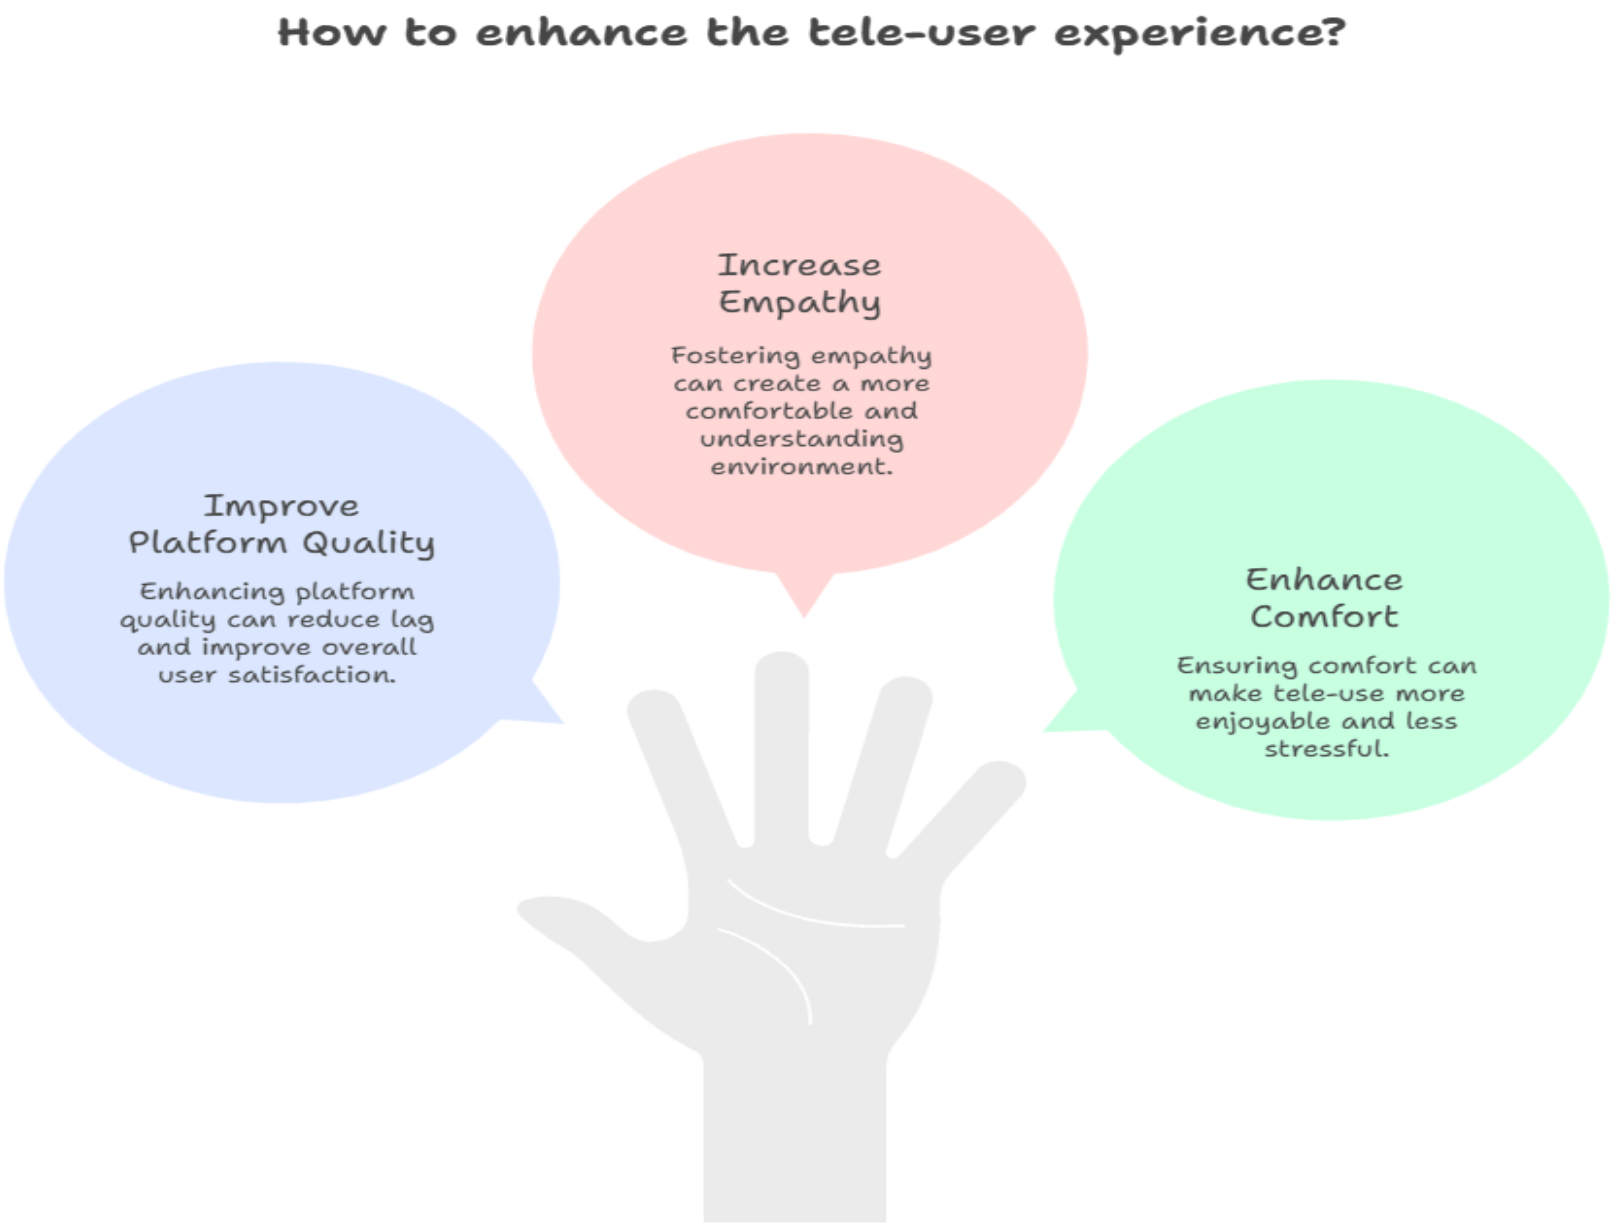

Comparative Trust Factors:-

Factor	Tele-Pharmacy	Face-to-Face
Eye Contact	Not applicable	High
Audio Clarity	Moderate	High
Responsiveness	High	High
Privacy	Moderate	High
Personal Connection	Low	High

Barriers to Tele-Pharmacy:-

Demographic	Internet	Digital Literacy	Barrier Level
Rural Adults	Low	Low	High
Urban Youth	High	High	Low
Elderly	Moderate	Low	High

Understanding & Experience:-

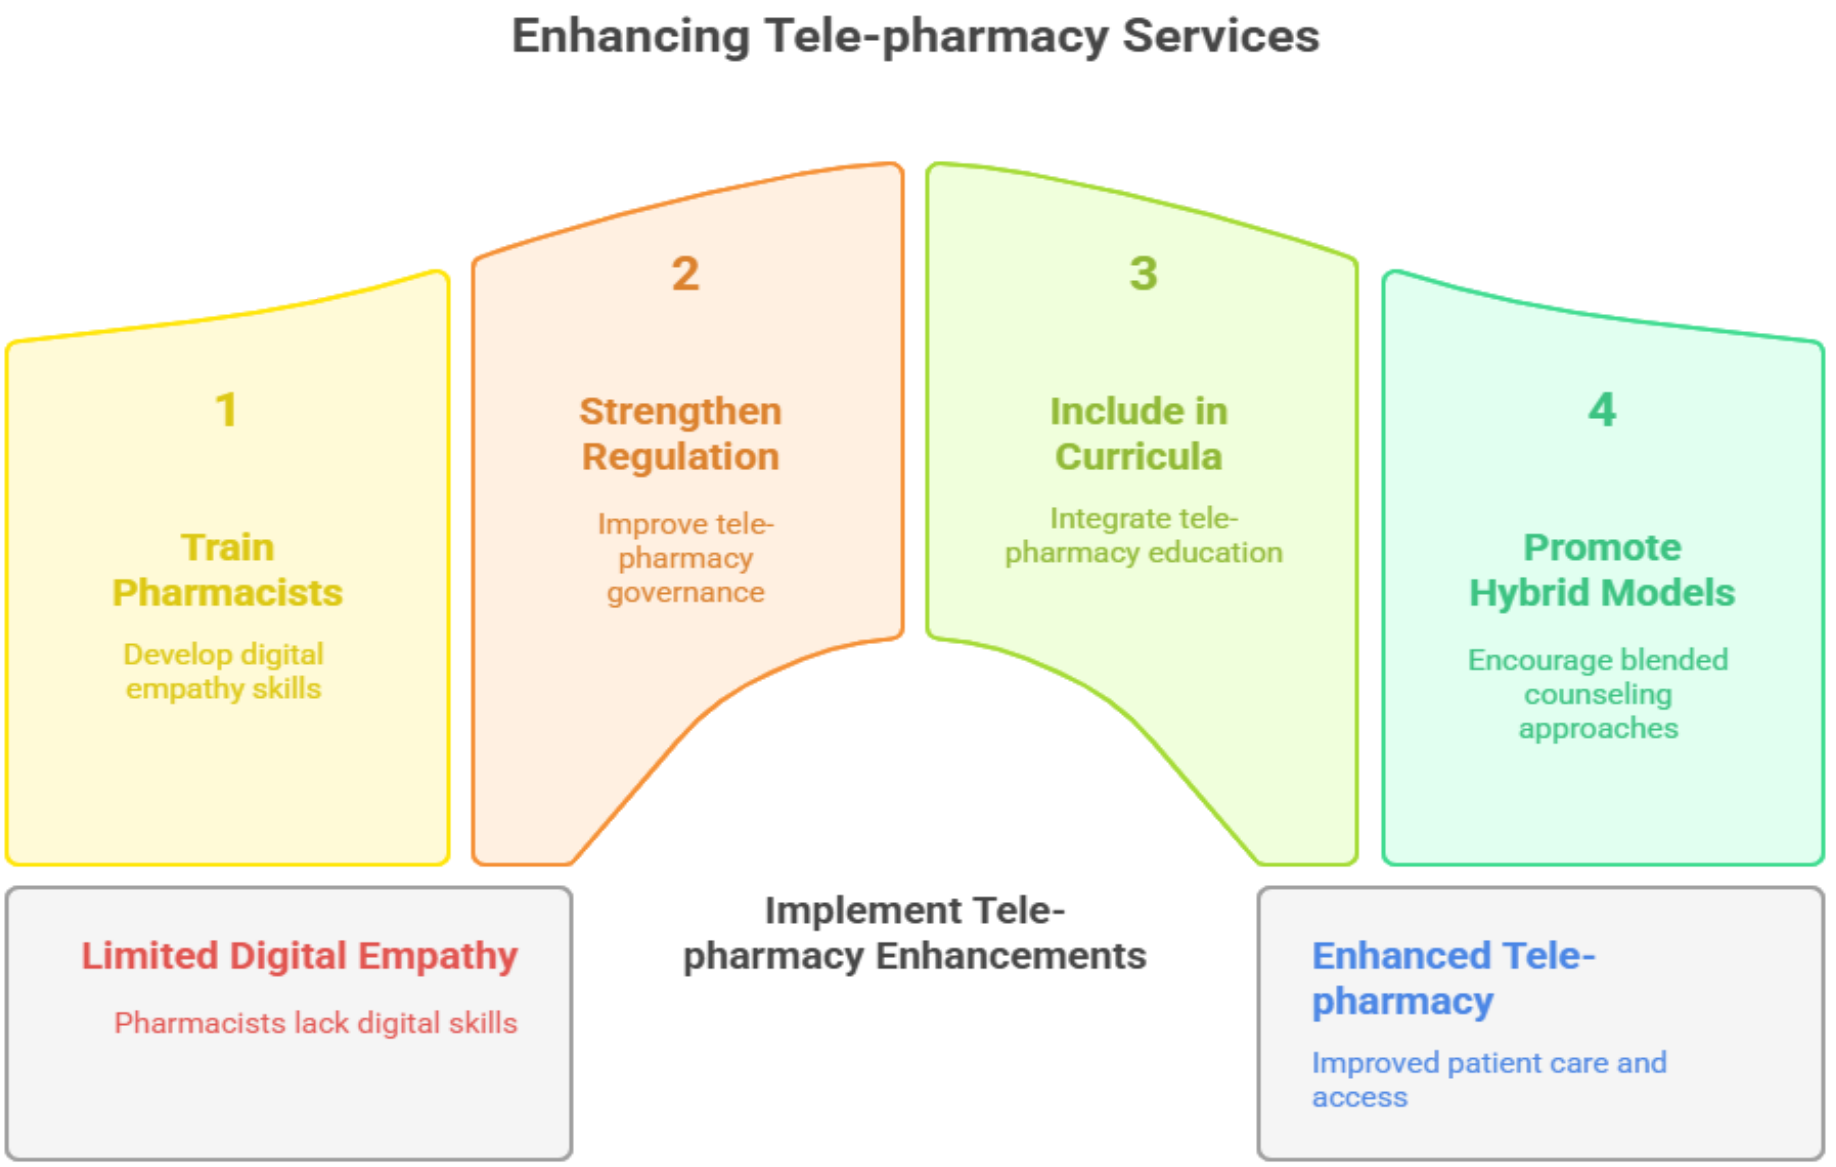

Patient Feedback Themes:-

Theme	Tele-Pharmacy	Face-to-Face
Convenience	“Easy to access from home.”	“Worth the travel.”
Reassurance	“Felt impersonal.”	“Felt confident.”
Technical Issues	“Audio lag.”	“None.”
Connection	“Limited.”	“Strong.”

Discussion:-

The Best of Both Worlds in Pharmacy Care
Tele-pharmacy
Expands access and convenience
Hybrid Pharmacy
Face-to-face Pharmacy
Builds rapport and emotional support

Recommendations:-

Conclusion:-

How to integrate tele-pharmacy with traditional counseling?
